

1. What are the best things about being a Psychology major at St. Thomas?
 - Connect with the department chair, who can give you opportunities in the department, which include working on a research team. Talk with the peer advisors (Educational Psychology Club) to learn about other opportunities. There are three departmental organizations: Psychology Club brings together students interested in psychology activities including study nights, guest speaker lunches, and a organization devoted to mental health awareness. What do you like about Counseling and therapy majors? How do you think about critical thinking? Are you interested in legal studies?
